About this program

Griffith's Bachelor of Business lets you design your ideal career. You can choose a single major, which will give you specialist skills in one profession. Or you can choose a second business major or additional major to give you an even broader range of skills and knowledge when you graduate. You can also choose not to complete a major, selecting from a range of courses that provide broad knowledge for a career in business management.

If you are not sure which majors to choose just yet, that is okay. Once you enrol, you can try some different courses before you choose the combination that is right for you.

A Griffith business degree will prepare you for a wide range of career opportunities - from running major events through to managing key aspects of complex organisations such as employment relations, marketing campaigns, or logistics.

Innovation and Entrepreneurship

As a graduate of the Innovation and Entrepreneurship major, you'll be able to create and develop innovative ideas that enable scale and societal impact. You will have an understanding of the entrepreneurial mindset, ways to identify or create opportunities, and the strategic and operational issues in firm creation. Create your own career by starting your own lifestyle or high-potential startup, be entrepreneurial while working in a family business or being an intrapreneur within someone's business.

International Business

You will be prepared to work with international trade and investment organisations or in the public and private sectors in management, strategic planning, research, corporate government relations, global operations and public relations.

Logistics and Supply Chain Management

You may find opportunities to work as a logistics and supply chain manager, purchasing manager, business or strategy manager, or export and import operations manager. These career opportunities exist in the public, private and not-for-profit sectors.
