About this program

This program is designed to provide students with an opportunity to undertake advanced study and supervised research work in the specialisation defined by their undergraduate degree program within the context of a multidisciplinary cohort.

The research skills developed within this program will provide an attractive credential for students seeking employment in the public or private sectors. The program will also provide the necessary preparation for entry into a higher degree research program. The multidisciplinary context of the program, involving team-teaching of students and the sharing of coursework and seminar experiences across disciplines will be invaluable to students given the importance of a multidisciplinary approach to researchers and practitioners seeking to understand complex problems in health.

| Code | Program title | Campus | Intake |
|------|---|------------|-----------------------------|
| 1171 | Bachelor of Exercise Science | Gold Coast | Trimester 1 and Trimester 2 |
| 2096 | Bachelor of Exercise Science (Honours) (this program) | Gold Coast | Trimester 1 and Trimester 2 |

Progression is dependent upon satisfying admission requirements.

My attendance during the program

Attendance information

This program is offered on-campus full-time or part-time. Students may commence the program in either February or July. Students entering the program in February will undertake an intensive course in Trimester 1 followed by coursework and dissertation in Trimesters 1 and 2. Students entering the program in Trimester 2 will undertake coursework and a dissertation course in their first trimester and complete the dissertation in their second trimester.

Students who wish to complete the program part-time will be required to consult with the Program Director to determine the appropriate program structure.

This program consists of 30 credit points of coursework and a 50 credit point research thesis component.

Coursework

The coursework will provide critical evaluation of research and presentation, develop the student's knowledge and understanding of statistical analyses techniques as applied to scientific research and develop an awareness of research proposal design and background.

Students are required to attend compulsory coursework sessions as stipulated in the University teaching timetable and in the course timetables provided by course convenors.

Dissertation

Students are required to find a suitable supervisor for their research project prior to submitting their application for admission into the program. Students who are unable to locate a suitable supervisor should discuss their proposed research project with the Program Director.

The final research component of the program will be a dissertation which will involve research on a specific project, a seminar and thesis describing the research in detail.

During your enrolment in the dissertation component of this program you will work under supervision and be required to meet regularly with your supervisor. It is recommended that you discuss on-campus attendance requirements of your research project with your supervisor at the start of the dissertation.

Depending on your project, attendance at off-campus locations may also be required. Where your project requires on-campus laboratory work, students are required to undertake their research at an appropriate laboratory on the Gold Coast campus or according to the directions of the student's supervisor, and/or program convenor.

Please contact the Program Director for more information about available projects.

Workplace Health and Safety Training

Students are to discuss required workplace health and safety training with their supervisors prior to the commencement of **6001HLS Dissertation Preparation**. Students who fail to undertake the prescribed workplace health and safety training will not gain entry into laboratories.

My career opportunities

My career opportunities

Graduates of the program will be able to plan and conduct research in exercise science and related health disciplines, and therefore will be well-placed for positions in the private, not for profit, and public sectors. In addition, graduates will be eligible to apply for admission to higher degree research programs, thereby preparing them for high level research careers.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Bachelor of Exercise Science (Honours) (2096)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
