For Continuing Students Only

Available at

Nathan Campus, Online

Duration

1 year full-time

2 years part-time

Credit points

80

About this program

Our river basins or catchments have been progressively transformed over time. We've built cities, we've cleared land for food production, and this has had profound consequences for our catchments.

With this specialist degree you'll learn to combine and use scientific, engineering and economic knowledge to planning ways to protect, restore and rehabilitate our catchments. You'll develop the leading edge knowledge and skills needed to make a difference in this rapidly developing area of professional practice.

The Master of Catchment Science is the only catchment-dedicated postgraduate degree in the world. Hosted by the International WaterCentre and developed and delivered in collaboration with Griffith University.

| Code | Program title | Campus | Intake |
|-------------|---|-----------------------|-----------------|

My attendance during the program

Attendance information

This Graduate Diploma is offered full-time and part-time online and in person at Nathan Campus.

What are the fees?

Fee-paying postgraduate (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Graduate Diploma of Catchment Science (4207)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.
