

## Bachelor of Marine Science (International students)

Program code	Entry requirements	Prerequisites
1328	6.5	NIL
Available at	IELTS (Academic) ( <a href="#">more</a> )	Assumed knowledge
Gold Coast Campus	<b>CRICOS code</b>	Any General or Applied English subject (Units 3 and 4, C)
Duration	059729E	General Mathematics or Mathematical Methods (Units 3 and 4, C)
3 years full-time	<b>Commencing in</b>	<a href="#">Apply Now</a>
Credit points	Trimester 1 and Trimester 2	
240		
Indicative fee		
\$39,000.00* per year ( <a href="#">more</a> )		
* 2024 indicative annual fee		

### About this program

As a student you will address and manage complex issues to ensure that marine industries prosper sustainably in healthy marine ecosystems. As a graduate, you will be equipped to tackle problems that affect our oceans, tourism, fisheries and food production, climate change, maritime pollution and waste management.

With cutting-edge teaching and research strengths, Griffith University is an ideal location to study marine science. Located within easy access to a variety of extensive natural and artificial waterways, iconic surf beaches and the diverse wetlands and coastal biodiversity of Moreton Bay, the Gold Coast is the perfect natural laboratory.

You will be offered a marine industry placement, through the Industry Affiliates Program and/or a capstone experience that will expose you to professional activities in fisheries, aquaculture, marine conservation, coastal management and/or coastal engineering.

In your first year, you will take core courses that provide the necessary foundations in the basic sciences. In second and third years, you focus on your chosen area of specialisation.

### My attendance during the program

#### Attendance information

The Bachelor of Marine Science is offered as a full time three year degree, in an on-campus mode. You can also study this degree part-time, but note that courses are offered in day-time hours in on-campus mode.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

### My career opportunities

#### My career opportunities

You could find opportunities in coastal resource management, fisheries laboratories, conservation and pollution control management, coastal physical science (modelling or meteorology), marine science institutes, medium and large consultancy companies, marine parks, education research and specialist marine-focused organisations such as Coastalwatch.

### Pathways to further study

#### Pathways to further study

Graduates of the Bachelor of Marine Science may be eligible to apply for admission to the Bachelor of Science (Honours).

### What are the fees?

#### International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

#### Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

#### Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

#### Program fees for the Bachelor of Marine Science (1328)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

#### Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

#### Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
