

## Bachelor of Marine Science (Domestic students)

Program code	Entry requirements	Prerequisites
1328	65.00	NIL
Available at	Entry requirements	Assumed knowledge
Gold Coast Campus	ATAR/RANK 2024 (more)	Any General or Applied English subject (Units 3 and 4, C)
Duration	Commencing in	General Mathematics or Mathematical Methods (Units 3 and 4, C)
3 years full-time 6 years part-time	Trimester 1 and Trimester 2	
Credit points		
240		
Indicative fee		
\$8,500.00* per year (more)		
* 2024 indicative annual CSP fee		

### About this program

As a student you will address and manage complex issues to ensure that marine industries prosper sustainably in healthy marine ecosystems. As a graduate, you will be equipped to tackle problems that affect our oceans, tourism, fisheries and food production, climate change, maritime pollution and waste management.

With cutting-edge teaching and research strengths, Griffith University is an ideal location to study marine science. Located within easy access to a variety of extensive natural and artificial waterways, iconic surf beaches and the diverse wetlands and coastal biodiversity of Moreton Bay, the Gold Coast is the perfect natural laboratory.

You will be offered a marine industry placement, through the Industry Affiliates Program and/or a capstone experience that will expose you to professional activities in fisheries, aquaculture, marine conservation, coastal management and/or coastal engineering.

In your first year, you will take core courses that provide the necessary foundations in the basic sciences. In second and third years, you focus on your chosen area of specialisation.

### My attendance during the program

#### Attendance information

The Bachelor of Marine Science is offered as a full time three year degree, in an on-campus mode. You can also study this degree part-time, but note that courses are offered in day-time hours in on-campus mode.

#### Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

### My career opportunities

#### My career opportunities

You could find opportunities in coastal resource management, fisheries laboratories, conservation and pollution control management, coastal physical science (modelling or meteorology), marine science institutes, medium and large consultancy

companies, marine parks, education research and specialist marine-focused organisations such as Coastalwatch.

## Pathways to further study

### Pathways to further study

Graduates of the Bachelor of Marine Science may be eligible to apply for admission to the Bachelor of Science (Honours).

## What are the fees?

### Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

### Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

### Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

### FEE-HELP

Eligible undergraduate fee-paying students may defer their tuition fees by taking out a FEE-HELP loan which is part of the Higher Education Loan Program (HELP). Payment of the loan is via the taxation system when income reaches a specified level.
