

Bachelor of Advanced Science (International students)

Program code

1342

Commencing in

Exit Point Only

Available at

Gold Coast Campus, Nathan Campus

Duration

3 years full-time

Credit points

240

About this program

The program introduces students to the scientific research culture early in their degree program, challenging their abilities to produce high quality advanced work. Students have the additional opportunity to engage in research science early in their degree by undertaking one Advanced Studies course per trimester and a significant project in their final trimester. In doing so, the students will be individually guided and mentored by one or more of the outstanding scientific researchers within Griffith's schools and research centres.

Code	Program title	Campus	Intake
1330	Bachelor of Advanced Science (Honours)	Gold Coast, Nathan	Trimester 1, Trimester 2 and Trimester 3
1342	Bachelor of Advanced Science (this program)	Gold Coast, Nathan	Exit point only

My attendance during the program

Attendance information

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

My career opportunities

My career opportunities

You'll be extremely well prepared for a career in your chosen specialisation, and valuable to employers in almost any realm of business, industry and government as well as the more typical areas of science graduate employment such as AusAID, Departments of Education and Science, Environment, Primary Industries, Natural Resources, Health, Defence, CSIRO, Patents Offices and the Bureau of Meteorology.

Areas of possible employment include hospitals and medical research institutes, consultancies, parks and fisheries management, agriculture and horticulture, technical sales, analytical labs, biotechnology and pharmaceutical companies, the food and beverage industry electricity companies, and oil and mineral exploration.

Professional recognition

Professional recognition

Depending on your major, graduates are eligible to join the following professional bodies:

- Royal Australian Chemical Institute (RACI)
- Australian Institute of Physics (AIP)
- Australian Society for Biochemistry and Molecular Biology (ASBMB)
- Ausbiotech Limited
- Australian Society for Medical Research (ASMR)
- Australian and New Zealand Society for Cell and Development Biology (ANZSCDB)
- Australian Mathematical Society (AUTMS)

- [Australian Society for Microbiology](#)
- [Australian Society of Plant Scientists \(ASPS\)](#)
- [Australian Institute of Food Science and Technology \(AIFST\)](#)

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Bachelor of Advanced Science (1342)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
