

Bachelor of Engineering (Honours)/Bachelor of Industrial Design (International students)

Program code 1441	Entry requirements 6.5	Prerequisites NIL
Available at Gold Coast Campus	IELTS (Academic) (more)	Assumed knowledge Any General or Applied English subject (Units 3 and 4, C)
Duration 5 years full-time	CRICOS code 094981B	Mathematical Methods (Units 3 and 4, C)
Credit points 400	Commencing in Trimester 1 and Trimester 2	Apply Now
Indicative fee \$40,000.00* per year (more) * 2024 indicative annual fee		

About this program

Now you can combine the creative skills of industrial design with the practical solutions of mechanical engineering. This double degree will arm you with the techniques and technical skills you need to excel in this vibrant industry.

You'll study a combination of in-depth theoretical frameworks that make up the mechanical engineering discipline, including project planning and management. Plus, you'll learn industrial design principles and concepts like development, problem-solving and modelmaking.

So much more than just theory, this degree gets you learning hands-on from year one and delivers you a qualification that employers find hard to ignore.

Industry and expert connections

From year one, you'll be learning from industry experts and like-minded teachers. Hands-on experience is key to this double degree, and in your final year you can enhance your knowledge through an industry-based project or placement.

Graduate outcomes

You'll be at the forefront of a number of rapidly growing career paths. You can choose to design consumer products, putting your skills into play to make every day more user-friendly. Or, you can choose to specialise in the design and manufacture of products for a range of industries including mining, transportation, building services and medical supplies.

Majors

Engineering

- Mechanical Engineering

Flexibility

Tailor your timetable - Even if you study full-time on-campus, you may still be able to customise your degree to suit your needs. From a range of tutorial times to online access to lectures and other course material, we're here to help you fit study in with your work and life commitments.

Global mobility

Students may be eligible to do an international field trip, organised by the academic staff. This may count towards a component of the degree, depending on its structure.

My attendance during the program

Attendance information

The Bachelor of Engineering (Honours)/Bachelor of Industrial Design is offered full-time and part-time on-campus at the Gold Coast.

This program includes compulsory study in Trimester 3. Students who commence in Trimester 2 should note that you will be required to study in Trimester 3 for the first year of the program.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

Program accreditation

Program accreditation

Accreditation at the level of professional engineer will be sought for the Bachelor of Engineering (Honours)/Bachelor of Industrial Design.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Bachelor of Engineering (Honours)/Bachelor of Industrial Design (1441)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in

which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Fees and Charges Procedure](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
