<b>Available at</b> Gold Coast Campus, Nathan Campus, Online	ATAR/RANK 2024 ( <a href="#">more</a> )	<b>Assumed knowledge</b> English, English as an Additional Language, Literature or English & Literature Extension (Units 3&4, C) General Mathematics or Mathematical Methods (Units 3&4, C)
<b>Duration</b> 3 years full-time 6 years part-time	<b>Commencing in</b> Trimester 1, Trimester 2 and Trimester 3	
<b>Credit points</b> 240		
<b>Indicative fee</b> \$9,500.00* per year ( <a href="#">more</a> ) * 2024 indicative annual CSP fee		

### About this program

Be at the forefront of a constantly developing industry, ready to help shape the future. With this degree, you'll achieve a high level of core IT technical knowledge and a major specialisation, ensuring you're prepared for a career across a vast number of roles and industries.

You'll learn in purpose-built, industry-leading facilities crafted to reflect genuine workplaces. From our Big Data Visualisation Lab to our virtual reality, augmented reality, gamification and robotics labs, you will have ample opportunity to enhance your learning through cutting-edge technology.

Throughout this degree, you'll be learning from world-class researchers and lecturers who have sent robots into space and predicted the outcome of federal elections using big data.

#### Industry and expert connections

What makes our IT degree stand out is the opportunity to put what you learn in the classroom into practice through industry experience. From working in start-ups to large corporations, these opportunities are often a stepping-stone into future employment. You will have the opportunity for paid industry experience through our App Factory, where students work with real clients to develop apps to meet their business needs.

We also have a wide range of industry contacts and partnerships that help you build your professional network. Our Industry Advisory Board, which includes members such as IBM and Suncorp, ensures that our degree is focused on what employers are looking for and provides our students opportunities to meet and learn from industry-leading professionals.

#### Graduate outcomes

Depending on your major, you may find a job as a systems analyst, business analyst, software developer, database administrator, systems administrator, network and security administrator, network architect, technical writer, web developer, app developer, game developer, computer engineer, educator or researcher. You'll be prepared for a career in commerce, industry, corporate IT, government or private consulting.

#### Majors

- Information Systems and Business Analysis
- Networks and Cyber Security
- Software Development
- Data Analytics and IoT
- Information Technology

#### Flexibility

**Take control of your time** - This degree has intakes in Trimester 1, 2 and 3. So, whenever you're ready to study, we're ready to get you started.

### **Global Mobility**

An array of inspiring overseas study opportunities, ranging from a few weeks to a year, are available for students in this degree. Find out more about [going global at Griffith](#).

## **My attendance during the program**

### **Attendance information**

This degree is offered full-time and part-time at the Nathan and Gold Coast campuses and online. You may choose to study courses on-campus, online or a combination of modes to suit your requirements. You may also choose to study courses at other campuses if or where the program structure allows.

### **Student Income Support**

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

### **Work-integrated learning**

Students must complete a 20 credit point Work Integrated Learning (WIL) course in their final year. WIL has been designed to integrate students into the workplace through the completion of an industry-based work, which is designed to benefit both the student and the industry partner. WIL can be taken as either a Placement or team-based project. With Placement, students are placed with an industry partner where students attend their placement 2 days a week to produce the deliverable(s) for that organisation. With team project, students are assigned into a team to work on a project from an industry partner. With either choice, students use their placement or team project as a vehicle to apply what they have learned in their program and demonstrate independent and life-long learning on the job.

The inclusion of work-integrated learning in this program demonstrates Griffith's commitment to preparing its graduates for success in their working life.

## **My career opportunities**

### **My career opportunities**

#### **Key employment sectors\***

- Computer security
- IT support
- Software
- IS architecture design

#### **Potential job outcomes**

- IT support manager
- Software developer
- Software engineer
- Network designer
- Business analyst

## **Program accreditation**

### **Program accreditation**

The Bachelor of Information Technology is accredited with the [Australian Computer Society](#).

## **Professional recognition**

### **Professional recognition**

Graduates are eligible to apply to join the [Australian Computer Society](#) as full members.

Griffith University has accreditation from the International Institute of Business Analysis (IIBA) and graduating Bachelor of Information Technology students with the Information Systems major will have commenced their preparation for industry certification from the IIBA.

Those Bachelor of Information Technology students graduating with the Networks and Security major will be ready to undertake industry network certification.

## What are the fees?

### Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

### Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

### Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

### FEE-HELP

Eligible undergraduate fee-paying students may defer their tuition fees by taking out a FEE-HELP loan which is part of the Higher Education Loan Program (HELP). Payment of the loan is via the taxation system when income reaches a specified level.
