\$36,500.00* per year ( <a href="#">more</a> )		
* 2024 indicative annual fee		

### About this program

As consumer demand for sustainable products and services continues to grow, it has never been more important for businesses to understand the impacts and benefits of sustainable practices. In this double degree, you will learn about key sustainability issues, such as energy, water and waste management, and develop an appreciation of the interrelationships between environmental sustainability and business success. Throughout the degree, you will examine the sustainable use of our natural environment, and graduate with the skills and knowledge needed to find sustainable solutions for business and industry.

#### Environmental Science component

Depending on your chosen major in the environmental science component, you will study topics such as environmental economics and policy, climate change, water resources, biodiversity and species loss, land management and urban environments.

#### Business component

The business component offers a suite of majors and courses that emphasise how core functions of business and management, such as communication, planning, teamwork, strategy, human resources and self-development, work together and relate to sustainability. You will develop the analytical, communication and decision-making skills needed for work in the business world, and graduate with an understanding of how these skills can be applied in an environmental context.

The final year includes a 'capstone' experience, where you will have the option to apply your skills to gain employment-relevant experience through a research project or industry internship.

#### Business majors:

Accounting - Extended major Asian Business - Extended major Asian Engagement Behavioural Science Business Analytics Economics Employment Relations Events Finance Financial Crime Investigation and Compliance Financial Planning - Extended major Government and International Relations Human Resource Management Innovation and Entrepreneurship International Business - Extended major Logistics and Supply Chain Management Management Marketing Real Estate and Property Development Sport Management Sustainable Business Taxation Tourism and Travel

### My attendance during the program

#### Attendance information

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

This program is offered full-time on-campus at Nathan and the Gold Coast.

### My career opportunities

#### My career opportunities

Depending on the majors selected, you could find career opportunities in research, government, non-government agencies, engineering and environmental consultancies, data collation and evaluation, administration, advertising, business and strategic management, planning and policy, and sales and marketing. You will be equipped for work in positions such as environmental consultant, management facilitator, project officer or information management officer.

## Program accreditation

### Program accreditation

Depending on the major you complete, you can graduate with a degree accredited by:

Accounting major: [Chartered Accountants Australia and New Zealand \(CA ANZ\)](#) and [CPA Australia](#).

Financial Planning major: [Financial Adviser Standards \(FAS\)](#).

## Professional recognition

### Professional recognition

Depending on your major, you will be eligible to join the following professional bodies:

- Australian Society for Limnology
- Australian Society of Plant Scientists
- Ecological Society of Australia
- River Basin Management Society
- Royal Australian Chemical Institute
- Soil Science Australia

## What are the fees?

### International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

### Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

### Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

### Program fees for the Bachelor of Environmental Science/Bachelor of Business (1582)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

### Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

### Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student

can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.

#### **Further information**

- **Fees and Charges Procedure**
  - 3.6 - Fees for International Students
