\$39,000.00* per year (more)		
* 2024 indicative annual fee		

Important Notes

This program is currently suspended from offering.

About this program

This program will provide you with the skills and knowledge in clinical and environmental microbiology, bioinformatics, protein science, molecular biology and genomics and apply it in a competitive commercial environment. With the option to complete a major in Drug Discovery or take more general biotechnology orientated courses, this program will equip you for a career in research of biotechnology product development with clinical, agriculture, food and the environmental applications. This degree will be used as part of a joint articulation with the Hunan University of Chinese Medicine (HUCM).

My attendance during the program

Attendance information

The Bachelor of Biotechnology is offered full-time on-campus (at the Gold Coast).

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

My career opportunities

My career opportunities

Graduates will obtain a broad and in-depth understanding of current biotechnologies, business and innovation trends. Careers in biotechnology can be found in the health, agriculture, environment and food industries with applications in law, commerce and business.

Pathways to further study

Pathways to further study

Graduates of the Bachelor of Biotechnology who have completed 1016MSC Anatomy and Physiology Systems I, 1017MSC Anatomy and Physiology Systems II and 2018PHM Pharmacology as listed electives will be eligible to apply for the [Master of Pharmacy \(5661\)](#).

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or

- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Bachelor of Biotechnology (1631)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
