

Bachelor of Urban Planning (Honours)/Bachelor of Science (Domestic students)

Program code 1660	Entry requirements 65.00	Prerequisites NIL
Available at Gold Coast Campus, Nathan Campus	ATAR/RANK 2024 (more)	Assumed knowledge Any General or Applied English subject (Units 3 and 4, C) General Mathematics or Mathematical Methods (Units 3 and 4, C)
Duration 5 years full-time 10 years part-time	Commencing in Trimester 1 and Trimester 2	
Credit points 400		
Indicative fee \$9,000.00* per year (more) * 2024 indicative annual CSP fee		

About this program

This program gives you a unique opportunity to prepare for a career as an environmental scientist or as an urban and environmental planner. Upon graduating, you will be equipped to play an important role in bringing social and natural sciences together to find solutions for complex planning issues and problems.

With a strong focus on practical, hands-on teaching, you'll learn state-of-the-art drawing studios and work on real industry projects. You'll be taught by academics who have a strong footing in the industry and have the opportunity to network and connect with industry professionals throughout your degree.

What's more, you'll get the chance to undertake an industry placement, allowing you to put your skills into practice and make valuable industry contacts before you graduate.

In your final year you will complete an independent research project under the supervision of an academic staff member. The Honours program is a critical element for students seeking a direct pathway into research, academia and employment in many consulting and government organisations who prioritise the employment of honours graduates.

My attendance during the program

Attendance information

The Bachelor of Urban Planning (Honours)/Bachelor of Science is offered full-time on-campus at the Nathan and Gold Coast campuses.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

My career opportunities

My career opportunities

Graduate outcomes

Depending on your major, you'll be prepared for an array of science and planning careers. You could be an environmental planner, urban planner, geographer, environmental scientist, wildlife biologists or marine biologist.

You could find employment opportunities with all levels of government, especially state and local government agencies as well as business and industry groups, community organisations and private consulting firms working on all aspects of development and planning, environmental sustainability initiatives, environmental policy, urban ecology and biodiversity, community development, urban resilience, and environmental management. Increasingly, employers are employing science graduates in areas that require research and analytical skills, including the application of mathematics and statistics in the finance sector.

Key employment sectors*

- Councils
- Government
- Land development
- Construction industry

Potential job outcomes:

- Urban/town planner
- Strategic planner
- Regional planner
- Environmental planner
- Land development designer
- Traffic and transport planner
- Environment consultant
- Environmental scientist
- Geographer
- Wildlife biologist
- Marine biologist

Program accreditation

Program accreditation

The Bachelor of Urban Planning (Honours) is accredited by the [Planning Institute of Australia](#).

What are the fees?

Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

FEE-HELP

Eligible undergraduate fee-paying students may defer their tuition fees by taking out a FEE-HELP loan which is part of the Higher Education Loan Program (HELP). Payment of the loan is via the taxation system when income reaches a specified level.
