

Bachelor of Cyber Security (International students)

Program code 1677	Entry requirements 6.5	Prerequisites NIL
Available at Gold Coast Campus, Nathan Campus, Online, South Bank Campus	CRICOS code 114026J	Assumed knowledge Any General or Applied English subject (Units 3 and 4, C)
Duration 3 years full-time 6 years part-time (online only)	Commencing in Trimester 1 and Trimester 2	Mathematical Methods (Units 3 and 4, C)
Credit points 240		Apply Now
Indicative fee \$37,000.00* per year (more) * 2024 indicative annual fee		

About this program

Cyber security is one of the fastest-growing industries in Australia. With this degree, you'll gain highly sought-after skills to generate and implement innovative cyber security solutions for business, government and individuals. You'll develop the expertise to investigate and identify current and future cyber security threats, conduct risk and vulnerability assessments of networked devices and infrastructure, and generate and implement innovative cyber security solutions. You'll utilise cutting-edge facilities-including the new Cyber Range-to hone your security skills.

Study topics such as Fundamentals of Cyber Security, Cyber Security Standards and Operations, Cyber Security Defence and Incident Response, Digital Forensics, Ethical Hacking, Cryptography, and Trustworthy AI.

Your degree will also include core IT knowledge such as programming, networks and data management, and project management. You can also choose from a range of elective courses. In the last year of your studies, you will complete a practical project for industry or research placement providing first-hand experience of the knowledge, skills and attributes required to succeed in full-time employment.

My attendance during the program

Attendance information

This program is offered via full-time, part-time, on-campus, in-person and online mode.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

The South Bank offering of this program is available to Domestic Students only.

Managing Study Interruptions

Leave of Absence

Taking a leave of absence from this program is permitted, subject to conditions outlined in the Enrolment Procedure

Work-integrated learning

Students must complete a 20 credit point Work Integrated Learning (WIL) course in their final year. WIL has been designed to integrate students into the workplace through the completion of an industry-based work, which is designed to benefit both the student and the industry partner. WIL can be taken as either a Placement or team-based project. With Placement, students are placed with an industry partner where students attend their placement 2 days a week to produce the deliverable(s) for that organisation. With team project, students are assigned into a team to work on a project from an industry partner. With either choice, students use their placement or team project as a vehicle to apply what they have learned in their program and demonstrate independent and life-long learning on the job.

The inclusion of work-integrated learning in this program demonstrates Griffith's commitment to preparing its graduates for success in their working life.

Industry experience

Students will gain direct industry experience through the completion of the core 20 credit point Work Integrated Learning course in their capstone year.

My career opportunities

My career opportunities

As technology continues to advance, the need for cyber security professionals is also on the rise, with the Australian National Skills Commission reporting both a current shortage of cyber security professionals, as well as continued strong future demand for qualified professionals.

With IT prevalent in all sectors, you'll have the opportunity to work in a range of industries in either government or the private sector, across a range of industries. You will be equipped for potential career opportunities as a cyber security analyst, cyber security architect, cyber security manager, forensic computer analyst, security consultant, and security and compliance auditor.

Program accreditation

Program accreditation

Accreditation for the Bachelor of Cyber Security will be sought with the Australian Computer Society.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Bachelor of Cyber Security (1677)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Fees and Charges Procedure](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
