### About this program

Embark on a transformative journey with a Bachelor of Commerce degree, designed to unleash your potential in the dynamic world of business. Through a comprehensive curriculum, you'll acquire the essential technical skills and knowledge necessary to thrive in various fields such as accounting, finance, economics, and beyond. Dive into the core concepts of commerce, including accounting principles, economic theories, business statistics, and effective management strategies, laying the groundwork for a successful career.

What sets this program apart is its collaborative approach with industry experts, ensuring that you're equipped with the latest insights and practical knowledge demanded by today's competitive job market. With a focus on experiential learning and sustainable business practices, you'll not only tackle practical challenges but also cultivate a mindset geared towards innovation and adaptability. Whether you aspire to become a financial analyst, business consultant, or entrepreneur, a Bachelor of Commerce degree empowers you to excel in a wide range of professional environments and make a meaningful impact on the world of commerce.

You'll be able to choose from majors in applied accounting, economics and finance to align your education with your career goals - and, with this degree's emphasis on financial analytics and modelling, gain a competitive edge for employment across the public and private sectors.

#### GRADUATE OUTCOMES

Our Commerce degrees have been created with your future career in mind. Our partnerships with industry leaders and structured support to help you gain coveted industry qualifications equip you with the knowledge and skills to be successful in your field.

From first year onwards you'll be given practical skills to increase your employability, and you'll be working amongst a tight-knit cohort of fellow students, with the opportunity to take part in extracurricular programs such as Business Plus.

### My attendance during the program

**Attendance information**

This degree is offered full-time and part-time at the Nathan, Gold Coast and Digital campuses. You may choose to study courses on-campus, online or a combination of modes to suit your requirements. You may also choose to study courses at other campuses if or where the program structure allows.

Online students will be able to access course materials, participate in learning activities, lodge assessment items and access support services via [Learning@Griffith](mailto:Learning@Griffith). There is no requirement for on-campus attendance but access to a reliable computer with an internet connection is essential.

As a full-time student, you will generally attend 12-15 hours of scheduled classes per week throughout the trimester. As a part-time student, you will generally attend 6-8 hours of scheduled classes per week.

Classes may be scheduled during the day and evening throughout the week.

#### **Student Income Support**

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

#### **Managing Study Interruptions**

##### **Leave of Absence**

Taking a leave of absence from this program is permitted, subject to conditions outlined in the Enrolment Procedure

## **My career opportunities**

### **My career opportunities**

Graduates will be able to find employment in roles as diverse as accountant, banking and finance industry analyst, business manager, government policy advisor, market analyst, amongst many others.

Not only will you acquire the essential skills for a successful career in finance, economics and accounting but you'll also be prepared for diverse employment opportunities in a range of sectors. Whether it's contributing to public infrastructure projects, enhancing operations in hospitals, managing finances in retail or working with government bodies and non-profit organisations, your versatile knowledge, modelling and analytical skills will be applicable across a wide array of industries.
