### Important Notes

This program is scheduled to commence in **Trimester 1, 2025**.

### About this program

This double degree will prepare you for diverse career opportunities across technology and justice. Acquire sought-after skills that will enable you to develop and implement cyber security solutions targeting crime disruption and prevention. Learn how to identify and analyse emerging cyber threats, complete risk and vulnerability assessments, understand the fundamentals of programming and networking and simultaneously gain comprehensive knowledge of crime trends, criminal law, policing, investigation, forensic psychology and the drivers of crime and how it can be prevented.

### My attendance during the program

#### Attendance information

##### Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

##### Managing Study Interruptions

##### Leave of Absence

Taking a leave of absence from this program is permitted, subject to conditions outlined in the Enrolment Procedure

### My career opportunities

#### My career opportunities

You will be equipped for potential career opportunities in public and private sectors and in industries including law enforcement, crime prevention, e-safety and cyber security. Roles might include intelligence analyst, forensic computer analyst, security consultant, security and compliance auditor, cyber security analyst/architect, police officer or investigator.

## Program accreditation

### **Program accreditation**

Accreditation for the Bachelor of Cyber Security will be sought with the Australian Computer Society.
