

## Bachelor of Medical Science (Honours) (International students)

<b>Program code</b> 2099	<b>Admission requirements</b> Bachelor of Medical Science or equivalent with 5.0 GPA over second and third year <a href="#">(more)</a>	<b>CRICOS code</b> 081367J
<b>Available at</b> Gold Coast Campus		<b>Commencing in</b> Trimester 1 and Trimester 2 <a href="#">Apply Now</a>
<b>Duration</b> 1 year full-time		
<b>Credit points</b> 80		
<b>Indicative fee</b> \$36,500.00* per year <a href="#">(more)</a> * 2024 indicative annual fee		

### About this program

This program is designed to provide students with an opportunity to undertake advanced study and supervised research work in the specialisation defined by their undergraduate degree program within the context of a multidisciplinary cohort.

The research skills developed within this program will provide an attractive credential for students seeking employment in the public or private sectors. The program will also provide the necessary preparation for entry into a higher degree research program. The multidisciplinary context of the program, involving team-teaching of students and the sharing of coursework and seminar experiences across disciplines will be invaluable to students given the importance of a multidisciplinary approach to researchers and practitioners seeking to understand complex problems in health.

Code	Program title	Campus	Intake
1280	<a href="#">Bachelor of Medical Science</a>	Gold Coast, Nathan	Trimester 1 only
<b>2099</b>	<b>Bachelor of Medical Science (Honours) (this program)</b>	<b>Gold Coast</b>	<b>Trimester 1 and Trimester 2</b>

Progression is dependent upon satisfying admission requirements.

### My attendance during the program

#### Attendance information

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

This program consists of 30 credit points of coursework and a 50 credit point research thesis component.

#### Coursework

The coursework will provide critical evaluation of research and presentation, develop the student's knowledge and understanding of statistical analyses techniques as applied to scientific research and develop an awareness of research proposal design and background. Students are required to attend compulsory coursework sessions as stipulated in the University teaching timetable and in the course timetables provided by Course Convenors.

#### Dissertation

Students are required to find a suitable supervisor for their research project prior to submitting their application for admission into the program. Students who are unable to locate a suitable supervisor should discuss their proposed research project with the Program Director.

The final research component of the program will be a dissertation which will involve research on a specific project, a seminar

and thesis describing the research in detail.

During enrolment in the dissertation component of the program students will work under supervision and be required to meet regularly with their supervisor. It is recommended that students discuss on-campus attendance requirements of their research project with their supervisor at the start of the dissertation.

Depending on the project, attendance at off-campus locations may also be required. Where the project requires on-campus laboratory work, students are required to undertake their research at an appropriate laboratory on the Gold Coast campus or according to the directions of the student's supervisor, and/or Program Director.

Please contact the Program Director for more information about available projects.

### **Workplace Health and Safety Training**

Students are to discuss required workplace health and safety training with their supervisors prior to the commencement of **6001HLS Dissertation Preparation**. Students who fail to undertake the prescribed workplace health and safety training will not gain entry into laboratories.

## **My career opportunities**

### **My career opportunities**

Graduates of the program will be able to plan and conduct research in medical science and related disciplines, and therefore will be well-placed for positions in the private, not for profit, and public sectors. In addition, graduates will be eligible to apply for admission to higher degree research programs, thereby preparing them for high level research careers.

## **Professional recognition**

### **Professional recognition**

The following organisations recognise graduates of this award:

- Australian and New Zealand Society for Cell and Development Biology (ANZSCDB)
- Australian Society for Biochemistry and Molecular Biology (ASBMB)
- Australasian Society for Human Biology (ASHB)
- Australian Society for Medical Research (ASMR)
- Australian Society for Microbiology (ASM)

## **What are the fees?**

### **International students**

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

### **Indicative annual tuition fee**

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

### **Tuition fees**

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

### **Program fees for the Bachelor of Medical Science (Honours) (2099)**

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

### **Changing programs**

If an International student changes to a different program they will be subject to the approved program fee for the trimester in

which they are enrolled.

#### **Permanent resident status**

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Fees and Charges Procedure](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
