

Bachelor of Pharmacology and Toxicology (Honours) (Domestic students)

Program code 2118	Admission requirements Bachelor of Pharmacology and Toxicology or equivalent with 5.0 GPA over second and third year (more)	Next start date Trimester 2, 2024 (more)
Available at Gold Coast Campus		Applications close Monday, 24 June 2024 Apply Now
Duration 1 year full-time 2 years part-time	Commencing in Trimester 1 and Trimester 2	
Credit points 80		
Indicative fee \$9,000.00* per year (more) * 2024 indicative annual CSP fee		

About this program

This program is designed to provide students with an opportunity to undertake advanced study and supervised research work in the specialisation defined by their undergraduate degree program within the context of a multidisciplinary cohort.

The research skills developed within this program will provide an attractive credential for students seeking employment in the public or private sectors. The program will also provide the necessary preparation for entry into a higher degree research program. The multidisciplinary context of the program, involving team-teaching of students and the sharing of coursework and seminar experiences across disciplines will be invaluable to students given the importance of a multidisciplinary approach to researchers and practitioners seeking to understand complex problems in health.

Pharmacy at Griffith is ranked #1 by the [Good Universities Guide 2023/24](#) for Overall Experience, Teaching Quality, and Student Support in Australia.

Code	Program title	Campus	Intake
1528	Bachelor of Pharmacology and Toxicology	Gold Coast	Trimester 1 and Trimester 2
2118	Bachelor of Pharmacology and Toxicology (Honours) (this program)	Gold Coast	Trimester 1 and Trimester 2

Progression is dependent upon satisfying admission requirements.

My attendance during the program

Attendance information

This program is offered full-time and part-time on-campus. Students may commence the program in either Trimester 1 or Trimester 2. Students will undertake the intensive course [600IHLS Dissertation Preparation](#) upon commencement of their studies in the program. The course will be offered at the beginning of Trimester 1 and 2.

Students who wish to complete the program part-time will be required to consult with the Program Director to determine the appropriate program structure.

This program consists of 30 credit points of coursework and a 50 credit point research thesis component.

Coursework

The coursework will provide critical evaluation of research and presentation, develop the student's knowledge and understanding of statistical analyses techniques as applied to scientific research and develop an awareness of research proposal

design and background. Students are required to attend compulsory coursework sessions as stipulated in the University teaching timetable and in the course timetables provided by course convenors.

Dissertation

Students are required to find a suitable supervisor for their research project prior to submitting their application for admission into the program. Students who are unable to locate a suitable supervisor should discuss their proposed research project with the Program Director.

The final research component of the program will be a dissertation which will involve research on a specific project, a seminar and thesis describing the research in detail.

During your enrolment in the dissertation component of this program you will work under supervision and be required to meet regularly with your supervisor. It is recommended that you discuss on-campus attendance requirements of your research project with your supervisor at the start of the dissertation.

Depending on your project, attendance at off-campus locations may also be required. Where your project requires on-campus laboratory work, students are required to undertake their research at an appropriate laboratory on the Gold Coast campus or according to the directions of the student's supervisor, and/or program director.

Please contact the Program Director for more information about available projects.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

Workplace Health and Safety Training

Students are to discuss required workplace health and safety training with their supervisors prior to the commencement of **6001HLS Dissertation Preparation**. Students who fail to undertake the prescribed workplace health and safety training will not gain entry into laboratories.

My career opportunities

My career opportunities

Graduates of the program will be able to plan and conduct research in pharmacology, toxicology and related health disciplines, and therefore will be well-placed for positions in the private, not for profit, and public sectors. In addition, graduates will be eligible to apply for admission to higher degree research programs, thereby preparing them for high level research careers.

Pathways to further study

Pathways to further study

Students who successfully complete the one-year Bachelor of Pharmacology and Toxicology (Honours) will be eligible to apply for entry to higher degree studies and pursue a research or academic career.

What are the fees?

Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand

citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

FEE-HELP

Eligible undergraduate fee-paying students may defer their tuition fees by taking out a FEE-HELP loan which is part of the Higher Education Loan Program (HELP). Payment of the loan is via the taxation system when income reaches a specified level.
