About this program

BUILD A BODY OF RESEARCH.

Following on from the Bachelor of Sport Development, this Honours degree allows you to undertake advanced study and supervised research work. You'll delve deeper into the specialisation you've chosen and work within a team of other like-minded students and academics to further your research.

Industry and expert connections

We've designed this Honours degree to give you the teamwork skills required for further research. You'll share lessons and seminar experiences across multiple disciplines, equipping you with the knowledge you need to understand complex problems in public health, sports, recreation and many other areas.

Graduate outcomes

The enhanced research skills developed within this program are of particular interest to future employers in the public or private sector. You'll also have the right background for entry into a higher degree research program as this Honours degree is the perfect platform for a PhD.

Flexibility

Tailor your timetable - Even if you study full-time on-campus, you may still be able to customise your degree to suit your needs. From a range of tutorial times to online access to lectures and other course material, we're here to help you fit study in with your work and life commitments.

Code	Program title	Campus	Intake
1493	Bachelor of Sport Development	Gold Coast	Trimester 1 only
1615	Bachelor of Sport Development/Bachelor of Business	Gold Coast	Trimester 1 and Trimester 2
2120	Bachelor of Sport Development (Honours) (this program)	Gold Coast	Trimester 1 and Trimester 2

Progression is dependent upon satisfying admission requirements.

My attendance during the program

Attendance information

This program is offered on-campus full-time or part-time. Students may commence the program in either February or July. Students entering the program in February will undertake an intensive course in Trimester 1 followed by coursework and the

research component in Trimesters 1 and 2. Students entering the program in Trimester 2 will undertake coursework and a research course in their first trimester and complete the research component in their second trimester.

Students who wish to complete the program part-time will be required to consult with the Program Director to determine the appropriate program structure.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

This program consists of 30 credit points of coursework and a 50 credit point research component.

Coursework

The coursework will provide critical evaluation of research and presentation, develop the student's knowledge and understanding of statistical analyses techniques as applied to scientific research and develop an awareness of research proposal design and background. Students are required to attend compulsory coursework sessions as stipulated in the University teaching timetable and in the course timetables provided by Course Convenors.

Research component

Students are required to find a suitable supervisor for their research project prior to submitting their application for admission into the program. Students who are unable to locate a suitable supervisor should discuss their proposed research project with the Program Director.

The research component of the program will involve research on a specific project, a seminar and thesis describing the research in detail.

During enrolment in the research component of the program students will work under supervision and be required to meet regularly with their supervisor. It is recommended that students discuss on-campus attendance requirements of their research project with their supervisor at the start of the research component.

Depending on your project, attendance at off-campus locations may also be required. Where your project requires on-campus laboratory work, students are required to undertake their research at an appropriate laboratory on the Gold Coast campus or according to the directions of the student's supervisor and/or Program Director.

Please contact the Program Director for more information about available projects.

Workplace Health and Safety Training

Students are to discuss required workplace health and safety training with their supervisors prior to the commencement of 6001HLS. Students who fail to undertake the prescribed workplace health and safety training will not gain entry into laboratories.

My career opportunities

My career opportunities

Key employment sectors*

- Arts and Recreation Services
 - Community sport and recreation
 - Amateur and professional sporting organisations
 - Sport and recreation centres
 - State sporting organisations
- Education and Training
 - Elite athlete development

What are the fees?

Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

Fee-paying undergraduate (domestic) students

These fees are only applicable to domestic students who are not Commonwealth supported including:

- Full-fee paying domestic students who commenced their program prior to 2009.
- International students who have been approved to pay domestic tuition fees after obtaining Australian or New Zealand citizenship or permanent residency or a permanent humanitarian visa and who have not obtained a Commonwealth supported place.

Tuition fees

- A fee-paying undergraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

FEE-HELP

Eligible undergraduate fee-paying students may defer their tuition fees by taking out a FEE-HELP loan which is part of the Higher Education Loan Program (HELP). Payment of the loan is via the taxation system when income reaches a specified level.
