About this program

You will study a wide ranging and diverse base of specialist health management courses. If you are a graduate or manager in health and aged care services and you want to develop your skills and understanding of contemporary health service management issues, these degrees will help you achieve your goals. Through flexible teaching and research options, you will learn about key areas of health sector policy, governance, operations and evidence-based practice management.

You will develop skills and knowledge in current management theory and practice, develop your leadership skills and style and gain an in-depth understanding of health workforce planning. You will also learn about managing human resources, planning and implementing health programs, and managing performance and health budgets from respected industry practitioners and academics. Additionally, you will develop skills in strategic decision making and change management and an understanding of the role of technology in health management.

Through a project directly relevant to your organisation's strategic direction, you will develop research and project management skills.
