### About this program

You will learn the practical skills necessary to enact a new kind of safety leadership, with a focus on the expertise needed to get the job done, including skills in project management. We will help you advance from the simple, linear cause-effect thinking that has typically characterised safety work in Australia, and help you to identify and challenge pre-occupations with process and compliance. You will learn about resilience, complexity science and holism and be taken on an exciting journey into a new era of safety.
