About this program

What's next for your career? You may need to boost your skills to secure a promotion, or you could be looking for a qualification to nudge you into a new line of work. Our Graduate Certificate in Professional Studies allows you to choose your own courses (subjects) to create a personalised qualification that will take you where you want to go.

You can pick and mix four courses from the range of suggested courses below or choose from any of our postgraduate course offerings.

You can tailor your learning experience by selecting the courses most relevant to your aspirations, ensuring that you are getting the knowledge and skills you specifically need to achieve your career goals and optimise your employability.

We have curated and developed a collection of future-focused courses that are mapped to the skills that will be in high demand over the next five years and guided by the latest research into the future of work from LinkedIn, the World Economic Forum and the Queensland Government's Economic Recovery Strategy.

With the freedom to choose your courses, you'll receive an education that's flexible and tailored to your development needs. For each course you complete towards your graduate certificate, you will receive a digital badge that will verify and showcase your new knowledge and skills to employers. The digital badge will also provide you with real-time labour market insights in your chosen learning area. Our flexible study options put you in control of how fast or slow you study, how study fits around your life and how it benefits you.

As a student at Griffith, you'll receive personalised support from day one. Our support services, including careers advice and personal counselling, will help you as a professional to go in the right direction for you and your career.

My attendance during the program

Attendance information

This program is offered full time and part-time and courses can be studied online unless it is stated that they are face to face only or have on-campus attendance requirements. Depending on the course you wish to start studying with you will be able to work out when you can start studying.

This program is offered online. Some courses are also offered on campus. Depending on the course you wish to start studying with you will be able to work out when you can start studying.
