About this program

This Graduate Certificate program is an EXIT POINT ONLY from the [Master of Finance \(5592\)](#).

In the Graduate Certificate in Finance you will gain technical competencies and analytical skills and learn how to apply financial theory and quantitative techniques to various financial scenarios. This will provide a solid foundation in finance to prepare students for more advanced study based on the Chartered Financial Analyst (CFA) Body of Knowledge and/or to take on new challenges in the increasingly globalised and competitive financial sector. This program provides a foundation component that is compulsory for students who have no background in finance and are looking for a career change.

Griffith University offers a range of flexible delivery modes including on campus and online. Find out more about our [Finance](#) programs.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.
