### Trimester 3 intake is offered part-time only.

An Master of Business Administration (MBA) is an advanced general management degree designed for managers who wish to develop a solid business foundation, as well as skills and knowledge of cutting-edge business practices for the 21st century. At Griffith we offer two Master of Business Administration (MBA) programs, both are focused around our values of responsible leadership; sustainable business practices; and a global perspective with the aim of making you an effective globally responsible business leader. The two programs we offer differ in their delivery style; one is fully flexible and can be studied online or face to face in a standard 12 week trimester (MBA program 5158). The accelerated program is online only, and each course is delivered over a 6 week period (MBA program 5670). These two delivery styles allow you to choose the method of study that suits you best and both programs are assessed authentically meaning that you can apply what you learn to your workplace with immediate benefit.

In both programs you will study courses in sustainability, accounting and reporting, finance, people management, strategy and innovation and managing change through responsible leadership. Through study you will be equipped with an understanding of the key functional areas within a business and the challenges facing businesses. If you choose the fully flexible option you can choose to focus your electives in a particular area for example, finance, marketing or supply chain management. The accelerated online MBA program has twelve set courses and no electives.

Griffith University offers a number of study options for Business Administration. Find out more about our Business Administration programs.

### International exchange

The International Exchange component provides an opportunity for eligible MBA students to obtain experience at one of Griffith's international partner universities. With the MBA Director's approval, students may apply to substitute a maximum of 20 credit points core coursework and take 20 credit points elective of International Exchange across a full-trimester of study at an overseas partner university.

Students who wish to complete the major in Public Policy are not eligible for international exchange components. Please note that the Public Policy major is not available from 2021.
