About this program

This degree provides training for people who wish to help to make society more sustainable. It also provides opportunities for those who want to move into more senior management positions. You will develop the ability to work in multidisciplinary teams, to contribute to policy-making processes and to run environmental management systems.

Majors

- Climate Change Adaptation
- Economics and Policy
- Environmental Planning (Nathan on-campus only)
- Environmental Protection
- Sustainable Business

Code	Program title	Campus	Intake
5611	Master of Environment (this program)	Nathan, Online	Trimester 1 and Trimester 2
3212	Graduate Certificate in Environment	Nathan, Online	Exit point only

My attendance during the program

Attendance information

The program is offered full-time and part-time, both on-campus (at Nathan) with some majors available online.

My career opportunities

My career opportunities

Climate Change Adaptation: You will be equipped with the skills and knowledge needed to work in the areas of environmental climate change and policy-making. You may find work in the public sector, business or community organisations as an environmental assessment officer, project officer, project manager or policy officer.

Economics and Policy: Addressing the challenge of sustainability has created employment opportunities in environmental economics and policy making across the business, government and community sectors. You may find work as a policy officer, policy advisor, environmental assessment officer or management consultant.

Environmental Planning: With this specialisation in planning theory, practice and law you may find employment in a city or regional planning office, or as an environmental consultant or environmental project manager. Jobs in this field are available across a range of public and private sectors.

Environmental Protection: You will be equipped with the essential skills in environmental protection policy and practice

needed to work in consulting firms and in government agencies, such as the Department of Natural Resources and Mines, and the Australian Quarantine and Inspection Service. Your work will be focused on improving environmental management, quarantine and biosecurity outcomes in careers such as environmental monitoring and compliance officer, environmental assessment officer or project officer.

Sustainable Business: Green jobs, and businesses, are increasingly recognised as important. Incorporating environmental issues into business trending toward not just being an option but also a requirement for many companies. With this specialisation you will be equipped with the skills and knowledge needed to assist with organisation change toward sustainability goals, and thus sought after by a wide range of private and public organisations.

Professional recognition

Professional recognition

Graduates of this program are eligible for membership of the [Environment Institute of Australia and New Zealand](#) and may subsequently apply for registration as a [Certification as Environmental Practitioners \(CENVP\)](#).

Pathways to further study

Pathways to further study

The Master of Environment qualification will provide a pathway to Doctoral studies. Students wishing to pursue a Doctorate can choose an elective 40 credit point research dissertation component in addition to the core 10 credit point Research Design and Methods course.

What are the fees?

Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

Fee-paying postgraduate (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

Tuition fees for your degree program

- [Calculating tuition fees](#)

Changing programs

If a postgraduate student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Additional fee information

This program has been approved by the Australian Government for **student income support** (for example, Youth Allowance

and Austudy). Students should contact [Centrelink](#) for more information about their eligibility for student income support payments.

This postgraduate program has Commonwealth Supported Places. If you are eligible, the Australian Government will contribute to the cost of this program but you will also be required to make a contribution. Quotas are applied for admission to the Commonwealth Supported Places. Where demand exceeds the number of available places and all places have been filled for the current admission period, applicants who meet minimum program entry requirements may be eligible for a Fee-Paying Postgraduate place if such places are available. Please note that deferrals are not permitted for programs with Commonwealth Supported Places.
