

Master of Civil Engineering (International students)

Program code	Admission requirements	CRICOS code
5642	Bachelor degree in Civil Engineering or higher	083658D
Available at	(more)	Commencing in
Gold Coast Campus		Trimester 1 and Trimester 2
Duration		Apply Now
1 to 1.5 years full-time		
Credit points		
120		
Indicative fee		
\$42,500.00* per year (more)		
* 2024 indicative annual fee		

Important Notes

Please note that entry to this program in Trimester 2 is only available to students admitted with advanced standing (see [admission requirements](#) for further information).

About this program

This degree will give you advanced study across the breadth of specialisations in civil engineering. It is designed to extend and deepen your knowledge and skills gained from an undergraduate degree in civil engineering.

It is ideal for professional civil engineers who aspire to develop their design skills and advance their capabilities to analyse and solve structural problems across a wide range of real world civil engineering applications.

Code	Program title	Campus	Intake
5642	Master of Civil Engineering (this program)	Gold Coast	Trimester 1 and Trimester 2
5692	Master of Civil Engineering Advanced	Gold Coast	Trimester 1 and Trimester 2
5682	Master of Civil Engineering/Master of Engineering Project Management	Gold Coast	Trimester 1 and Trimester 2
3301	Graduate Certificate in Civil Engineering	Gold Coast	Exit point only

Note: Progression through this program suite is dependent upon satisfying admission requirements.

My attendance during the program

Attendance information

The Master of Civil Engineering is offered full-time, part-time and on-campus at the Gold Coast.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

My career opportunities

My career opportunities

You will be prepared for a wide range of senior roles in the building, construction, infrastructure, and mining industries undertaking projects for a variety of public and private sector clients. More specifically, you will provide structural analysis and design services to engineering projects such as roads, bridges, tunnels, water distribution networks and high-rise buildings.

Given the current shortage of civil engineering graduates and experienced civil engineers in Australia, coupled with the huge investment in infrastructure projects nationally and internationally, this degree will enable recently qualified engineering graduates to improve their specialist technical skills.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Master of Civil Engineering (5642)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
