

## Master of Civil Engineering (Domestic students)

<b>Program code</b>	<b>Admission requirements</b>	<b>Commencing in</b>
5642	Bachelor degree in Civil Engineering or higher	Trimester 1 and Trimester 2
<b>Available at</b>	<a href="#">(more)</a>	<b>Next start date</b>
Gold Coast Campus		Trimester 2, 2024 <a href="#">(more)</a>
<b>Duration</b>		<b>Applications close</b>
1 to 1.5 years full-time 3 years part-time		Monday, 24 June 2024
<b>Credit points</b>		<a href="#">Apply Now</a>
120		
<b>Indicative fee</b>		
\$9,000.00* per year <a href="#">(more)</a>		
* 2024 indicative annual CSP fee		

### Important Notes

Please note that entry to this program in Trimester 2 is only available to students admitted with advanced standing (see [admission requirements](#) for further information).

### About this program

This degree will give you advanced study across the breadth of specialisations in civil engineering. It is designed to extend and deepen your knowledge and skills gained from an undergraduate degree in civil engineering.

It is ideal for professional civil engineers who aspire to develop their design skills and advance their capabilities to analyse and solve structural problems across a wide range of real world civil engineering applications.

Code	Program title	Campus	Intake
5642	Master of Civil Engineering (this program)	Gold Coast	Trimester 1 and Trimester 2
5692	<a href="#">Master of Civil Engineering Advanced</a>	Gold Coast	Trimester 1 and Trimester 2
5682	<a href="#">Master of Civil Engineering/Master of Engineering Project Management</a>	Gold Coast	Trimester 1 and Trimester 2
3301	<a href="#">Graduate Certificate in Civil Engineering</a>	Gold Coast	Exit point only

Note: Progression through this program suite is dependent upon satisfying admission requirements.

### My attendance during the program

#### Attendance information

The Master of Civil Engineering is offered full-time, part-time and on-campus at the Gold Coast.

#### Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

## My career opportunities

### My career opportunities

You will be prepared for a wide range of senior roles in the building, construction, infrastructure, and mining industries undertaking projects for a variety of public and private sector clients. More specifically, you will provide structural analysis and design services to engineering projects such as roads, bridges, tunnels, water distribution networks and high-rise buildings.

Given the current shortage of civil engineering graduates and experienced civil engineers in Australia, coupled with the huge investment in infrastructure projects nationally and internationally, this degree will enable recently qualified engineering graduates to improve their specialist technical skills.

## What are the fees?

### Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.
- [Find out more...](#)

### Fee-paying postgraduate (domestic) students

#### Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

#### Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.
- [Find out more...](#)

#### Tuition fees for your degree program

- [Calculating tuition fees](#)

#### Changing programs

If a postgraduate student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

### Additional fee information

This postgraduate program has Commonwealth Supported Places. If you are eligible, the Australian Government will contribute to the cost of this program but you will also be required to make a contribution. Quotas are applied for admission to the Commonwealth Supported Places. Where demand exceeds the number of available places and all places have been filled for the current admission period, applicants who meet minimum program entry requirements may be eligible for a Fee-Paying Postgraduate place if such places are available. Please note that deferrals are not permitted for programs with Commonwealth Supported Places.
