

Master of Electronic and Sport Engineering (International students)

Program code

5643

Available at

Nathan Campus

Duration

1 to 2 years full-time

Credit points

160

Commencing in

For Continuing Students Only

Important Notes

From 2023, commencing students are referred to the **Master of Professional Engineering (5728)**.

About this program

Electronic and sport engineers work in the exciting cutting-edge area of high technology in sport. In this degree, you will gain the advanced core knowledge needed in the electronics area, specialising in sport technology. You will also develop skills in engineering leadership and research.

Most elite sporting bodies and institutes now employ a vast array of high technology training and monitoring techniques. This equipment is designed and maintained by engineers who also develop new methods of applying this technology for training and rehabilitation. This degree also incorporates the opportunity to undertake elective courses in your area of interest and a full trimester research project.

My attendance during the program

Attendance information

The Master of Electronic and Sport Engineering is offered in on-campus mode.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

My career opportunities

My career opportunities

You will be prepared for senior roles in electronic engineering and have the skills needed to specialise in sport engineering. You could find career opportunities developing new technologies with manufacturers, applying technologies within sporting organisations, developing new training technology-based regimes with elite sport groups or in research bodies.

Pathways to further study

Pathways to further study

Students who graduate from the program and pass the Dissertation component will have a pathway to higher degree by research study.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Master of Electronic and Sport Engineering (5643)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
