About this program

You will gain a combination of technical and managerial knowledge and skills, which will provide you with a holistic approach to effectively manage information technology in organisations. You will also develop a solid grounding in the principles and practice of information technology and an in-depth knowledge of information and communication technologies and information systems. With this knowledge, you will be able to confidently manage the functional responsibility for choosing, implementing and maintaining information systems and technology within, and across, organisations.

My attendance during the program

Attendance information

This program is offered full-time, part-time and on-campus at Nathan.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

My career opportunities

My career opportunities

You will graduate with industry-recognised skills as well as technical, analytical, and research skills in information systems and information technology. You will be prepared for a wide range of senior employment opportunities relating to the development and management of information technology in any organisation. These positions may include systems analyst/developer, web/eCommerce developer, database designer and administrator and information resource manager. It can also lead to higher-level positions involved in formulating strategic plans and developing policy. Graduates are not limited to working in the IT industry but may work in all industries where the management of IT and implementation of information systems is essential for efficient and effective operations.

What are the fees?

Fee-paying postgraduate (domestic) students**Indicative annual tuition fee**

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Master of Information Systems and Information Technology Management (5658)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.
