

Master of Engineering Project Management Advanced (International students)

Program code

5693

Available at

Gold Coast Campus

Duration

1.5 to 2 years full-time

Credit points

160

Indicative fee

\$42,500.00* per year [\(more\)](#)

* 2024 indicative annual fee

Admission requirements

Bachelor degree in Engineering or higher

[\(more\)](#)

CRICOS code

088912K

Commencing in

Trimester 1, Trimester 2 and Trimester 3

About this program

This program provides students with advanced study in engineering project management. It is designed to extend and deepen the knowledge and skills gained from an undergraduate degree in engineering. It is ideal for professional engineers who aspire to develop their project management skills and advance their capabilities to manage significant engineering projects across a wide range of engineering applications. The program provides a pathway to a research higher degree.

| Code | Program title | Campus | Intake |
|------|--|------------|--|
| 5693 | Master of Engineering Project Management Advanced (this program) | Gold Coast | Trimester 1, Trimester 2 and Trimester 3 |
| 5660 | Master of Engineering Project Management | Gold Coast | Trimester 1 and Trimester 2 |
| 3311 | Graduate Certificate in Engineering Project Management | Gold Coast | Exit point only |

Note: Progression through this program suite is dependent upon satisfying admission requirements.

My attendance during the program

Attendance information

The Master of Engineering Project Management Advanced is offered full-time and on-campus at the Gold Coast.

If you are an International student on a student visa, you must ensure that you enrol in a way that will allow you to complete your enrolment within the expected program duration as stated on your Confirmation of Enrolment (CoE).

My career opportunities

My career opportunities

Project managers have a wide range of career opportunities in the building, construction, infrastructure, manufacturing, and mining industries. They manage projects for a variety of public and private sector clients.

Given the current shortage of project management engineering graduates and experienced project managers coupled with the huge investment in infrastructure projects internationally, this degree will enable recently qualified engineering graduates to improve their specialist technical skills.

What are the fees?

International students

An International student is one who is not:

- an Australian or New Zealand citizen or
- a Pacific Engagement visa holder or
- a person who has Australian permanent resident status.

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- An International student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Program fees for the Master of Engineering Project Management Advanced (5693)

Fees for this program can be found on the Programs and Courses website in the "Overview and fees" section. Select your commencing year to view your fees.

Changing programs

If an International student changes to a different program they will be subject to the approved program fee for the trimester in which they are enrolled.

Permanent resident status

If an **undergraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will be provided with a domestic fee-paying place.

The student may then apply for a Commonwealth supported place at the next admission period provided that the student satisfies the conditions for transfer from a domestic fee-paying place to a Commonwealth supported place as set out in the [Undergraduate Programs Admission Policy](#).

If a **postgraduate student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth supported place (subject to availability) or a domestic fee-paying place as applicable for the program.

If a **research student** obtains permanent resident status in Australia after commencing study in a program, and the student can provide evidence of permanent resident status prior to the census date (of the trimester in which they are enrolled), the student will automatically be considered for a Commonwealth Government Research Training Program (RTP) Fee Offset or a domestic fee-paying place as applicable for the program.
