About this program

As technology continues to evolve the need for organisations to protect and secure digital information is becoming more critical. As a graduate of the Master of Cyber Security, you will possess the skills to generate and implement innovative cyber security solutions for business, government and individuals.

In this degree, you'll develop the expertise to investigate and identify current and future cyber security threats, conduct risk and vulnerability assessments of networked devices and infrastructure, and generate and implement innovative cyber security solutions.

My attendance during the program

Attendance information

This Masters program will be offered full-time and part-time online and at the Nathan and Gold Coast campuses.

Work-integrated learning

Students must complete a 20 credit point Work Integrated Learning (WIL) course in their final year of **Pathway 1 (2 years) or Pathway 2 (1.5 years)**. WIL has been designed to integrate students into the workplace through the completion of an industry-based work, which is designed to benefit both the student and the industry partner. WIL can be taken as either a Placement or team-based project. With Placement, students are placed with an industry partner where students attend their placement 2 days a week to produce the deliverable(s) for that organisation. With team project, students are assigned into a team to work on a project from an industry partner. With either choice, students use their placement or team project as a vehicle to apply what they have learned in their program and demonstrate independent and life-long learning on the job.

The inclusion of work-integrated learning in this program demonstrates Griffith's commitment to preparing its graduates for success in their working life.

My career opportunities

My career opportunities

This program will expose you to the skills and knowledge appropriate for a career in the cyber security industry. You will be equipped for potential career opportunities as a cyber security analyst, cyber security architect, cyber security manager, forensic computer analyst, security consultant, and security and compliance auditor. Cyber security is a key issue and you can find possible employment in government and private industries.

What are the fees?

Commonwealth supported students

- The indicative fee represents the expected average fee for an annual full-time study load (80 credit points). This is based on average study patterns across courses and the Australian Government's broad discipline areas (student contribution bands). A student's actual annual fee may vary in accordance with his or her choice of majors and electives. The Australian Government sets student contribution amounts on an annual basis.

Fee-paying postgraduate (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points.

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying postgraduate student pays tuition fees.
- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
- The tuition fee for students who commence their program prior to 2014 is charged according to the approved program fee for the trimester in which the student commenced the program.
- The tuition fee for students who commence their program from 2014 onwards is charged according to the approved program fee for the trimester in which the student is enrolled.

Additional fee information

This postgraduate program has **Commonwealth Supported Places**. If you are eligible, the Australian Government will contribute to the cost of this program but you will also be required to make a contribution.

Quotas are applied for admission to the Commonwealth Supported Places. Where demand exceeds the number of available places and all places have been filled for the current admission period, applicants who meet minimum program entry requirements may be eligible for a Fee-Paying Postgraduate place if such places are available. Please note that deferrals are not permitted for programs with Commonwealth Supported Places.
