About this program

The PhD by Prior Publication allows for formal recognition for established researchers who do not already hold a doctoral level qualification and who have substantial international standing in their respective fields based on their record of academic publication.

The degree will be awarded to a student who, through published work of which the student is either sole author or primary author, has made an original scholarly contribution to knowledge in a research area of strategic importance to the University and demonstrated a capacity for independent research.

Student Income Support

To be classed as a full-time student, you are required to enrol in a minimum number of credit points each standard study period. The minimum credit points for full-time enrolment in this program is 30 credit points.

Trimester 1 and Trimester 2 are deemed standard study periods. As Trimester 3 is a non-standard study period, continuing students moving from one year to the next will not be required to study during this trimester to be eligible for student income support.

Domestic students who commence in Trimester 3 may be eligible for student income support from the onset of study provided they are enrolled full-time in this study period.

Please refer to the [Australian Government website](#) for more details.

What are the fees?

Fee-paying research (domestic) students

Indicative annual tuition fee

The indicative annual tuition fee is calculated based on a standard full-time study load which is usually 80 credit points (two full-time trimesters).

The indicative annual tuition fee is based on current conditions and available data and should only be used as a guide. These fees are reviewed annually and are subject to change.

Tuition fees

- A fee-paying research student pays tuition fees.

- Students are liable for tuition fees for the courses they are enrolled in as at the census date.
